# GDT SD-WAN AS-A-SERVICE, POWERED BY CISCO CATALYST

A Modern Approach to SD-WAN and Network Infrastructure Consumption

Simplify the design, implementation, and management of your Cisco Catalyst SD-WAN networking infrastructure by leveraging the power of NaaS. GDT SD-WAN as-a-Service, Powered by Cisco Catalyst is an all-inclusive, subscription-based approach that enables your business to consume Cisco hardware, software, licensing, and 24x7x365 support services with flexible consumption models. It's a cost-effective way to help your business fuel innovation, accelerate value, and increase uptime and visibility, all while lowering risk.

Trust the Certified Experts at GDT

The GDT team of certified Cisco professionals brings years of experience in SD-WAN deployments and Day-2 management along with a deep understanding of Cisco Catalyst SD-WAN technology, to keep your network infrastructure running smoothly.

SOLUTION HIGHLIGHTS

- Intelligent traffic routing and prioritization
- Next-generation SD-WAN overlay for enterprise networks
- Aligned for enterprise cloud networking requirements
- Virtual IP fabric supports software services to optimize cloud networking
- Separate transport from the service side of the network
- Centralized routing intelligence and segmentation
- Automated network security
- Increased reachability through centralized policy
- Simplified orchestration and provisioning
- Full design, project management, staging, and implementation
- 24x7x365 monitoring, RMA dispatch, and equipment replacement
- Ongoing configuration, proactive tuning, and management
- Custom traffic shaping
- Automated failover and load balancing
- Maintenance including security patching, OS upgrades, and license management
- Service-level KPIs and SLAs

BUSINESS OUTCOMES

- Predictable cost model
- Maximum network value and performance
- Optimal provisioning (and elimination of over-provisioning)
- Improved security and compliance
- Alignment of IT spending to business goals
- Enhanced agility, responsiveness, and scalability
- Quarterly Business Reviews to review network performance, capacity, and operational improvements

GDT NaaS: Keep Pace with Shifting Networking Requirements

GDT Cisco Powered NaaS offerings are backed by a team of industry experts who provide hands-on, collaborative consultation, design, deployment, implementation, and ongoing lifecycle management. Enjoy enhanced business functions through improved agility, responsiveness, and scalability.

We help your business stay ahead through our proven methodologies, localized presence, and unmatched expertise.
